The said Special Resolution, if passed, shall have the effect of allowing the Board on behalf of the Company to offer, issue and allot the Securities otherwise than on pro rata basis to the existing shareholders.

The Board of Directors believes that such issue is in the interest of the Company and therefore recommends the resolution for your approval. No Director of the Company is interested or concerned in the said resolution.

The Company has about 10 acres of land on long term lease basis at Kakinada port in Andhra Pradesh. The Company plans to put up both Dry Cargo Warehousing and Bulk Liquid Terminal facilities at Kakinada.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

SCENARIO IN INDIA

Bulk liquid Storage scenario

Though the Indian economy showed signs of sluggishness, the overall demand in the Bulk Liquid tanking business was firm. With an overall increase in economic activities and the expected increase in the domestic manufacture of petrochemicals and chemicals and export / import thereof during the current year, the scenario seems promising resulting into an additional demand for tankage. The per capita increase in income of Indian population is leading to increased consumption of edible oils and hence there is a rise in import of edible oils, both crude and refined oils. The GDP growth for FY14 is forecasted at 6.1% as against 5.5% of last fiscal. The growth revival of the Indian economy will largely come on the back of global factors and a normal monsoon, which will have a positive spin offs on all important services sector.

INDUSTRY STRUCTURE & DEVELOPMENT

The present logistics industry is highly unorganised, with a large number of players providing individual services, across the value chain. The fragmented nature of the industry leads to customers having to deal with various service providers, thus putting a strain on their logistics costs.

On the domestic front, lack of logistics infrastructure directly affects the efficiency of product movement in India. This could be either from the manufacturing plant where the product is made to the store where the end consumer buys the product or from the port where the product lands into India to the shelf where the end consumer buys the product. Thus every product bears the cost of inefficiency in the system, which is reflected in the consumer price index – ‘inflation’, wherein, ultimately, every consumer pays the price. Thus the vicious circle feeds itself through the growing logistics inefficiency in India’s economy. With the government providing new tax sops in the Budget, new vistas such as introduction of General Sales Tax (GST) will open up opportunities for reducing distribution costs.

OPPORTUNITIES & THREATS

The Company currently operates 2 Bulk Liquid Chemical Terminals at Kandla, Gujarat having a combined capacity of 127,000 Kilo Litres (KL), with a total of 64 tanks which includes specialized tanks, such as stainless steel tanks, tanks equipped with heating and insulation facilities and coated tanks which stores specialty products. The Company plans to add further capacity at its Terminal 1, Kandla and has approached the concerned authorities for requisite approvals. Further, as a revenue enhancement measure, the Company has during the year converted 2 existing Mild Steel (MS) tanks to Stainless Steel (SS) tanks. The Company also plans to convert further such tanks based upon demand from its customers.

PERFORMANCE

The Company as on date operates in only one segment i.e Bulk liquid storage facility, the revenues of which for the current year stood at ₹ 2985.09 lac as against ₹ 2341.10 lac last year, showing an increase of 27.51% in its topline. The profit after tax showed a jump of 18.56 % from ₹ 707.89 lac last year to ₹ 839.29 lac in the current year.

OUTLOOK

Diversification opportunities

Taking into view the promising growth the sector has to offer, the Company has been reviewing each and every opportunity which is coming along its way. To strengthen its roots the Company is increasing its installed capacity and modernising the existing plants at Kandla. The Company has already increased its capacity to 127,000 KL. and will add capacity to its Kandla Terminal by 7000KL shortly. The Company plans to set up a Dry Cargo Warehousing and Bulk Liquid Terminal at Kakinada, Andhra Pradesh and has already started with the land development work at the site. It has also plans to set up a Container Freight Station and a Bulk Liquid Terminal at Pipavav, Gujarat.

NOTES FORMING PART OF FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2013

M. Income Tax

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax assets and liabilities are determined based on the difference between the financial statements and tax basis of assets and liabilities, as measured by the enacted / substantively enacted tax rates. Deferred tax Expense / Income is the result of changes in the net deferred tax assets and liabilities.

Deferred tax assets are recognised only if there is a virtual certainty backed by convincing evidence of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date and are appropriately adjusted to reflect the amount that is reasonably or virtually certain to be realised.

N. Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period (net of prior period items) attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss (net of prior period items) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

O. Provisions

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

P. Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Q. Leases

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

R. Cash and cash equivalents

2 SIGNIFICANT ACCOUNTING POLICIES

A. Basis of preparation

The financial statements have been prepared to comply with all material respects with the Accounting Standards notified by Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies have been consistently applied by the Company and its subsidiary Company.

B. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

C. Revenue Recognition

Income is generally recognised only when its collection or receipt is reasonably certain. Insurance Claims are recognised only when the claim is passed. Interest is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

D. Fixed Assets

E. Impairment of Assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment of assets. If any indication of such impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an assets in prior years no longer exists or may have decreased, such reversal of impairment loss is recognised.

F. Depreciation

- (a) Depreciation on Plant & Machinery has been provided on higher of Depreciation over estimated useful life and Straight Line Method at the rates specified in Schedule XIV of the Companies Act, 1956.
- (b) For all other assets, depreciation is provided on higher of Depreciation over estimated useful life and Written Down Value Method at the rates specified in Schedule XIV of the Companies Act, 1956.

Current investments are carried at lower of cost and fair value determined on an individual investment basis. Noncurrent investments are carried at cost. However, provision for diminution in value is made to recognise a decline, other than temporary, in the value of the noncurrent investments.

I. Inventories

Stores and Spares are valued at lower of cost or net realizable value.

J. Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

K. Retirement and other employee benefits

- (a) Retirement benefits in the form of Provident Fund and Superannuation Fund is a defined contribution scheme and the contributions are charged to the Statement of Profit and Loss in the year when the contributions to the respective funds are due. In case of KMLL, gains/ losses are capitalised as "pre-operative expenditure pending for capitalisation".

M. Income Tax

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

KESAR TERMINALS & INFRASTRUCTURE LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2013

Deferred tax assets and liabilities are determined based on the difference between the financial statements and tax basis of assets and liabilities, as measured by the enacted / substantively enacted tax rates. Deferred tax Expense / Income is the result of changes in the net deferred tax assets and liabilities.

Deferred tax assets are recognised only if there is a virtual certainty backed by convincing evidence of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date and are appropriately adjusted to reflect the amount that is reasonably or virtually certain to be realised.

N. Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period (net of prior period items) attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss (net of prior period items) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

O. Provisions

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

P. Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability, but discloses its existence in the financial statements.

Q. Leases

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term. In case of KMLL operating lease payments are capitalised as "pre-operative expenditure pending for capitalisation".

R. Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.
